

Friday, July 11, 2014

Dear Valued Customer,

It has come to our attention that **additional hardware is required** for the successful installation of our High Lifter Diver Down snorkel kit (Part number: **SNORK-RNG9-1**). If you or your customer has a 2014 Polaris Ranger 900 XP or 2014 Polaris Ranger 900 Crew this additional hardware is **required** to properly seal the air box.

Our records indicate that you have purchased 1 or more of these kits directly from High Lifter or from an authorized High Lifter dealer. **Please contact us at 800.699.0947 between 8 a.m. and 5 p.m., Monday-Friday so that we can send you an additional hardware pack at no cost to you.**

Until you or your customer has received and installed the free additional hardware pack for part number SNORK-RNG9-1, DO NOT OPERATE any Polaris Ranger 900 with the snorkel installed.

If you purchased this kit from High Lifter Products as a dealer or wholesaler, please contact your sales representative at 800.699.0947 for more information on how to get this important information to your customers **at ZERO cost to you**. It is your responsibility to notify your end users immediately of this clearance notice. As a service to you, we will be glad to contact your customer or the new owner directly and walk them through this process. Time is of the essence with any notice like this so you must provide us with the contact information for your customer(s) or the new owner within the next week, otherwise we will assume you handled this directly.

We look forward to your continued business with High Lifter Products.

Regards,

Team High Lifter
