

August 16, 2017

Dear Valued Customer:

You are receiving this letter because our records indicate you purchased a High Lifter Lift Kit for a Yamaha YXZ, Part # YLKYZ-50. We are making recommendations to customers who have purchased a High Lifter lift kit, to add reinforcement to their frame. We are now offering this additional reinforcement kit at no cost as an extra support. We especially recommend this upgrade for aggressive drivers.

The Yamaha YXZ frames have some recent history of needing additional frame support. For our customers who have installed the YLKYZ-50, lift kit, our Engineering team highly recommends that you install the components that we are providing in the kit, Part # 69C. To receive this kit at no charge, simply call 800.699.0947 with your name, address plus proof of purchase and a kit will be mailed to you.

Current YLKYZ – 50 lift kits are now replaced by YLKYZ-51 containing all of the new hardware that you are receiving at no cost. Please follow the recommendations listed above for your Yamaha YXZ. Customer satisfaction and safety are top priority at High Lifter. Should you have any additional questions regarding the advice above and to get your free support kit mailed out, please give us a call at 800-699-0947.

Thank you,

A handwritten signature in black ink that reads "Brian Smith".
